Re repairs to Jain Katte in Sira Town

In forwarding herewith in original, the entire file of records, received from the President Town Municipal Council, Sira, on the above subject, I have the honor to state as follows

The katte in question is situated to the north west of the town and is the only source of water supply to the people and the cattle of the town This is said to have been dried up, due to the breaching of the feeder channel caused by the down pour of heavy rains, seven or eight years back

From the report accompanying the estimate in the matter of making good the damages to the feeder channel to the katte, it is seen that an estimate for Rs 1,500/- has been got prepared by the P W D making provision for the following items also -

1 Closing the breach of the bund
2 Opening out a relieving weir by the side
3 Repairing the feeder channel

As it is the only source of water supply in the town, and situated near the shandy ground Veterinary hospital and the Pusa-firkhana the Municipal Council moved the District Board for a contribution of one-third of the estimate viz Rs 500/- and Government were pleased to accord sanction to the resolution of the District Board for the payment of a contribution of Rs 500/- out of the closing balance vide G O No L 5988-91/L B 14-41-27 dated 12th January 1942

The

The Municipal Council have at their meeting held on 3rd March 1942 resolved that the balance of the estimate, viz Rs 1 000/- may be met in equal shares by the Municipality and Government in the shape of water supply grants during the current year

I request that sanction of Goverrment may be kindly obtained to the resolution of the Council, to meet a moiety of the cost of the estimate out of the Municipal Funds and the balance as grant from Government as this is an important work which improves the water supply of the town

I have the honor to be,
sir,
Your most obedient servant,

P Ramaswamy Iyer
